DEPARTMENT OF MILITIA AND DEFENCE,

OTTAWA, March 13th, 1876.

SIR,—In compliance with your instructions to effect the distribution of the sum of fifty thousand ($50,000) dollars, voted by Parliament last Session for the surviving Militiamen of 1812-15, steps were taken without delay to obtain information as to the number of these veterans, and to identify each of them, a work which involved a very extensive correspondence at the outset, and necessitated finally a personal examination of those who were not able to comply fully by writing with the required references and *data*.

Two thousand five hundred (2,500), out of the 3,024 Militiamen referred to in the accompaning schedule, have been paid each twenty ($20) dollars, on the following vouchers :

1. A satisfactory comparison of their own declaration with the official documents on record in this department ;

2. The appearance of their name on the list of those who were awarded land grants for their services during the war of 1812-15 ;

3. A solemn declaration of identity from the applicant ;

4. A solemn declaration of services and personal identity from another veteran, or other person who had personal knowledge of his services in 1812-15.

With a view of assisting such of the applicants who could not by themselves furnish that indispensable information, two officers of this department were detailed to visit and examine personally the parties interested. Lieut.-Colonel John Macpherson visited the Province of Ontario, and myself the Province of Quebec. By mustering the veterans in groups from 30 to 60, according to their number within a certain limit, great facilities have been afforded for the settlement of their claims. I must say that this system worked in a most satisfactory manner. A great number of those who could not at first justify by their own account of the legitimacy of their claim, but who had nevertheless served under arms, were thus put in a position to substantiate their declaration.

It has been found, in most cases, that those entitled to participate in the vote made by Parliament are in indigent circumstances, many having no one to depend upon for support, and living entirely on public charity.

The news that the surviving soldiers of the eventful days of 1812-15 were to be the recipients of the bounty of the Legislature, was greeted throughout the country with universal satisfaction, and in many places where I had these old men congregated during my visit, they were most hospitably entertained.

Out of 3,024 who have applied to participate in the vote of $50,000, 2,554 have proved that they are veteran soldiers of 1812-15, and it is thought that the list will be materially swollen, as a considerable amount of correspondence is still carried on between the department and the applicants, with a view to complete their cases. New applications are daily received.

It was at first thought possible in this report, to present exact data, and draw from them interesting statistical information that would have been extremely instructive and useful, but I have been reluctantly compelled to postpone this work until the exact number of veterans yet alive is made known to this department.

No exact data have yet been found to establish correctly the number of Militiamen under arms in Upper Canada in 1812-15, but it is stated in an address to the Prince Regent on the subject of services rendered by the Militia of that Province (*Journals* of Upper Canada, 1812, page 302), that "the population able to bear arms does not exceed 10,000 men; nearly one-half of these were embodied for the whole of the first, and a very considerable portion of the greatest part of the last campaign." The strength of the Militia on actual service above referred to, appears to have been as follows:—550 cavalry, 350 artillery, 55 artificiers and 4,500 infantry; total 5,455 officers, non-commissioned officers and men. The Province seems to have had only one batallion, 500 strong, which was styled "the Incorporated Battalion." The whole of the Militia was ordered out in that section of the country in 1813.

The number of Militiamen under arms in Lower Canada during the war, obtained from the documents on record in the Department of Militia and Defence, was as follows:

1st Battalion Embodied Militia	1,030
2nd do do	862
3rd do do	883
4th do do	917
5th do do	680
6th do do	640
Voltigeurs do	567
Chasseurs do	538
Col. Deschambeault's do	500
	6,617

Six other battalions were out in Lower Canada, but only for a few months, viz.:

1st Battalion, Quebec	863
2nd do do	834
3rd do do	614
1st do Montreal	450
2nd do do	576
3rd do do	296
	3,638

There were about 12,606 Militiamen out for short periods varying from a few days to two months, making a total of 23,525 Militiamen of Lower Canada out for some period, more or less, during the war, viz.:

9 Battalions Embodied Militia	6,617
6 do Montreal and Quebec	3,638
Cavalry	183
Artillery	163
Voyageurs	323
Called out for short periods	12,606
Total	23,525

The whole of the regular troops serving in Canada during the war numbered about 13,000, as far as can be ascertained, comprising the 1st Foot (1st battalion only), 8th King's Own, 10th Royal Veterans (one battalion only), 13th, 40th, 41st, 49th, 89th, 100th, 103rd, 104th (New Brunswick) Regiments, besides the Royal Newfoundland, the Meurons, the Fencibles, the Glengarry Regiments, the 19th Light Dragoons, about 800 Royal Marines and Seamen, and 500 Artillery and Engineers.

The whole period of the "war of 1812-15" embraced forty-two months, out of which twenty-nine were engaged in actual military operations, viz.:

1811.—September. War threatening; preparations made on both sides.

1812.—1st June. The first attack upon Isle aux Noix. 18th, United States declare war.

1814.—17th September. Last battle fought. 24th December. Treaty of Peace signed in Europe.

1815.—1st March. Treaty made known in Canada.

The operations of the war, as far as fighting is concerned, were as follows:
